Connecting to a Wireless Network – Mac OS X

Academic Computer Services

For previous Version of Mac OS or additional instructions... See page 2.

1. Select the Network Preference short cut located on the Menu bar and Select Turn AirPort On.

2. Click the Network Preference shortcut again and select the NCCstudent wireless network on the list.

3. Launch your browser software

4. The NCC wireless login page will appear in your browser window. Enter your NCC-ID and pin.

Additional Instructions for earlier Version of Mac OS
Click the Apple Menu and select System Preferences.

Select Network from System Preferences.

**Turn Airport On** if it’s off and **Select NCCstudent** from the Network Name list drop down box

**Go to steps 3 and 4 on page 1.**
