

EKG TECHNICIAN

TRAIN TO BE AN EKG TECHNICIAN AND ADVANCE YOUR CAREER IN HEALTH CARE.

Do you have an interest in helping people, as well as in science, or looking to expand your credentials in health care? Training to become an EKG Technician might be right choice for you. The health care industry on Long Island is one of the fastest growing sectors, and the outlook for the EKG Technician job growth is projected to increase faster than average. Employment opportunities exist in doctor offices, hospitals, diagnostic offices and rehabilitation centers.

EKG Technicians perform electrocardiograms which monitor the patient's heart and can help detect certain heart conditions. Learn how to operate EKG equipment, gain valuable experience running the test on people and prepare for certification all in three months. As a certified technician, job opportunities and salaries can increase. With further training or education, and credentials, over time you can advance your career in health care.

EKG TECHNICIAN

Using a combination of classroom and lab learning, this course will prepare students to sit for the EKG Technician Certification exam. Students will learn the basic Anatomy and Physiology terminology associated with the heart and circulatory systems, signs and symptoms of diseases, and the electrophysiology/conduction system of the heart. Students will learn the use and operation of the ECG equipment. Lab sessions will provide hands-on practice, as well as allow students to meet the requirement for performing EKGs on live individuals. Students must attend all classes and complete assignments, including all practical skills.

Textbook, materials, and certifying exam are additional costs.
VA APPROVED.

CED 1235 C1 Meets: Tuesday, Wednesday, Thursday
6:30pm-9:30pm for 20 sessions.

June 13 - July 27, 2017

Note: NAHP exam is scheduled for Tuesday, August 1.

Fee: \$695

CERTIFICATION

Candidates must meet the eligibility requirements specified by the accrediting association. A high school diploma or equivalent is required. The application may require disclosure of personal information, including Social Security number, date of birth, felony conviction, and email address. Applicants are expected to adhere to the professional standards for certification, including rules of conduct. Students successfully completing the course will earn a Certificate of Completion from Nassau Community College, which can be used to establish eligibility to qualify to take a certification exam.
